Clarifying Questions

1. Is my idea of a study chat room-type app needed on this campus? Or does Pengi take care of that because it's specifically for tutoring?
2. Do you think our community of students would benefit from this?
3. Do you think students in our community would use it for its intended purpose?
4. Could students potentially sign in with their Kerberos information or would this need to be completely separate from the school?
5. Would I need to adhere to the school's color scheme or could I explore different color schemes?
